GROWTH

A Journal Devoted to Problems of Normal and Abnormal Growth

VOLUME XXXIII
Papers 835-865

1969

Author Index, Vol. XXXIII, 1969

Allen, James R.	201
Bailey, M. E.	361
Barboriak, Joseph J.	331
Barton, A. D.	1
Baum, S. J.	89
Bird, Margaret A.	255
Bradford, G. E.	221
Braverman, Max	99, 241
Brazeau, Paul	17
Brekke, John H.	157
Bryden, M. M.	69, 143
Burns, E. Robert	25
Chrystall, R. B.	361
Darden, J. H.	89
Diller, Irene Corey	381
Francis, D. W.	303
Hansen, R. S.	303
Howard, Alma	269, 339
Hutto, D. C.	303
Husain, Sayid M.	17
Kail, Lanny C.	83
Kennan, Alfred L.	201
Kerr, George R.	185, 201
Kidwell, J. F.	269, 339
Knott, Virginia B.	123
Laird, Anna Kane	1, 339
Loevy, Hannelore	113
Mahlum, D. D.	57
Marsh, Gordon	291
Miller, Elizabeth E.	353
Minguell, Jose	217
Mizejewski, Gerald J.	47
Mosier, H. David	319
Perretta, Marco	117
Peterson, Roy R.	167
Printz, Deborah B.	259
Ramm, Gordon M.	47
Rene, A. A.	89
Robinson, D. W.	221, 231
Rosato, Francis E.	353
Roseman, James M.	353
Salinas, Ferando	117
Saucier, Robert	17
Scheffler, Guenther	185
Schrandt, Robert	241
Seltzer, Murray H.	353
Severi, Lucio	371
Sikov, M. R.	57
Thomas, J. M.	57
Trotter, Mildred	167
Tsou, K. C.	353
Umana, Roberto	157
Waisman, Harry A.	185, 201
Ward, Calvin L.	255, 259
Wilson, Arthur S.	331
Wolfe, Daniel E.	353
Zobrisky, S. E.	361

Author Index, Vol. XXXIII, 1969

	Page
AC field strength	
mechanism of action on regenerating planaria	298
Acceleration of metastatic growth by tumor removal	33
Adrenal weight of White Leghorn chicks	311, 312
Altitude	
effect on body growth of chicks	303
Allometric growth curve as a result of altered functional significance	150
Allometric lines	
graded changes in the slopes of	16
Allometric plots of Gompertzian growth curves	5, 8, 9, 11
Allometric relationship of body weight and tail length in rats	322
Allometric and non-allometric differential growth	1
Allometry studies of body weight and tail length in rats	319
growth curves for	323
Analysis of bulk passage of radioactive tracer through gastrointestinal tract	64
Analysis of growth of solid tumors	29
Analysis of variance	
for body weight of chickens	306
for gland weight of chickens	306
for organ weight of chickens	306
Analysis of velocity of movement of radioactive tracer	62, 63

	Page
Antigens, cancer cell	27
Autoradiographs of rat gastrointestinal tract	60
Axial morphogenetic alteration in regenerating *Dugesia tigrina*	297
Basal epidermal cells of hydranths, proliferation of	105
Biosciences Information Service	381
Blood volume in elephant seal	146, 147
Body composition of mice after centrifugation	85, 86
variations due to age and sex	87
Body, organ and gland weights of White Leghorn chicks	307
means for	307-309
Body weight of monkeys, growth of	191
Body weight of rats	
effect of Enovid on	19
Bone, fetal, weight of	167
Bone lengths and weights in four age periods	172
Bone marrow cellularity in irradiated rats	89
Brain, protease and ribonuclease activities in	157
Brain of mice	
cellular response to rapid growth in	227
Bursa of Fabricius, weight in White Leghorn chicks	313-315
^{14}C Formate uptake by rat liver	218
percent incorporation of	219
Cancer cell antigens	27
Carbon phagocytosis in chick embryo tissues	50, 51
Catch-up growth in rats	324, 325
allometric curves for	326, 328
Cell growth inhibitor	27
Cell increase in solid tumors	30
Cell movements in *Podocoryne carnea* hydranths	99
Cell proliferation in hydroids	100
Cellular response to selection for rapid postweaning growth	221
Centrifugation, effect on growth of mice	83
Changes in water and protein content of mice during centrifugation	87
Chick embryo, phagocytosis in	47
Cleft palate, incidence in hybrid mice	117, 120
Coelenterates, colonial forms	241
Condition index in female elephant seals	76, 77
Contraceptive agents	
effect on growth of cartilage in rats	17
Cranial base angles, statistics for	137
Cranial base segments	
curves for	129, 132
Cytochrome oxidase activity in Drosophila	255
Cytochrome oxidase activity in delayed versus non-delayed white pupae	256
Depression of weight gain in rats by Enovid	22
Development of *M. Mulatta*	185
Differences in movement of radioactive tracer through intestinal tract of adult and neonatal rats	67
Drosophila eggs	
histology of	260
Drosophila melanogaster	
Oslo strain	260
Iso-Amherst strain	260
D strain, histology of	264
effect of density delayed pupation on cytochrome oxidase activity in	255
Dugesia tigrina	
regeneration of	291
Dye distribution in grafted hydranths	105

	Page
Effect of alcohol and water restriction on body weight of male rats	334
Effect of alcohol and water restriction on body weight of female rats	335
Effect of fluid intake restriction of food consumption in rats	333
Effect of L-fucose on rat mammary tumor growth	353, 356
Ehrlich ascites tumor	34
cell growth, mathematical analysis of	35
Elephant seal	145
growth of	69
Endothelial system, chick embryo	53
Enovid	18
effect on body weight of rats	19, 21
Epiphyseal width of mature female rats, effect of Enovid on	20
Erythrocytes, quantitative changes following irradiation	91
Estrogenicity of contraceptive steroids	23
Ethmoid segment of cranial base	129
Exponential growth curves for femoral weight in humans	175
Fischer rats	90
Food consumption in rats	331
effect of fluid consumption on	333
Fourth Quadrennial Conference on Cancer	371-379
Frontal sinus	125, 126
Fucose content of rat tumors	357
Gamma-neutron radiation, effect on bone marrow cells	91
Gastrointestinal tract of neonatal and adult rats	57
schematic model of	59
Girls, changes in cranial base segments of	123
Gompertz equation for mouse growth	340
mean and standard errors for	343
least squares means	346, 347
Gompertzian function	2
Gompertz growth constants	
analysis of variance for	344
estimated variance components of	345
Gompertzian growth curves	2, 4, 6
Growth	
allometric and non-allometric	1
differential	11
exponential, of bone	175
Growth of	
basi-occipital bones in rat skull	12
allometric plot of	13
basi-sphenoid bones	12
body length of monkeys	192
body weight in monkeys	191
hydranths, effect of nutrition on	252
hydroid colony	248
infant *M. Mulatta*	185
longissimus muscle	361
correlation and regression coefficients for	364
mice	221
according to Gompertz model	351
mice exposed to chronic centrifugation	83
rat tumors, effect of L-fucose on	355
Southern elephant seal	69
tibial cartilage in rats	17
young pig	235
White Leghorn male chicks	303
analysis of variance at different altitudes	306

Page

Growth, relative 143
of fetal organs of monkey 205
Growth and development of fetal rhesus monkey 201
Growth and form of mouse, inheritance of 269
Growth by cellular hyperplasia 222
Growth by cellular hypertrophy 222
Growth curves, displacement of 1
Gompertzian 2
Growth data of Ford and Horn, allometric plot of 15
Growth hormone content of rat pituitaries 22
Growth hormone extract, pituitary 17
Growth phases in the elephant seal 146
Growth priorities, postnatal 153
Growth rates of fetal organs in rhesus monkey 206
Harelip in mice 113
incidence in mouse hybrids 116, 119
relationship to parental age 113, 119
relationship to weight of mother 118
types of, in mouse hybrids 117
Heart size in White Leghorn chicks 310
means for 310
Hematologic development of infant monkeys 194
Heterosis and mouse growth 283
Hydranth stolons, histology of 250, 251
Hydranths
colony growth of 248
grafts of 105
number of 248
Hydroid differentiation 99
Hydroid growth in young colonies 241
Hydroid stolons, length of 247
Immunologic characterization of neoplasia 27
Immunity and tolerance in oncogenesis 371
Influence of parental age on incidence of harelip in mice 120
Inheritance of growth and form in the mouse 339
Gompertz equation for 340
Internasal suture in the rat skull
Gompertz curve for 10
Larval crowding, relation to initiation of meiosis in Drosophila 259
Larval density
effect on development rates 261
development rate relationships 263
Linear changes in cranial base segments of girls 131-133
Linear dimensions of cranial base segments 127
statistics for 128
Linear growth and body weight growth in elephant seal 70
Linear growth of infant monkeys related to dietary proteins 197
Liver, protease and ribonuclease activities in 157
Liver weight of embryonic rat 220
Liver weight in White Leghorn chicks 316
Location of radioactive material at different hours after administration . . 61
Longissimus muscle 363
change in fiber diameter 365, 366
Longissimus muscle fibers
mean diameters of 367
measurements of 368
Longissimus muscle growth in swine 361
Lymphocytes, function of following irradiation of bone marrow 99
Lymphocytes, quantitative changes following irradiation 91

Page

Mammary tumor growth in rats 353
Mathematical analysis of tumor cell growth 35
Maximal tumor cell protoplasmic mass 34
Mean weight and standard error in different mouse strains 272
Means of lengths and weights of free limb bones 173
Meiosis in *Drosophila melanogaster* 259
Mestranol
  effect on body weight and epiphyseal width in rats 21
Metopic suture of rat skull
  Gompertzian curve for 10
Mice, effect of centrifugation on growth of 83
Mirounga Leonina (Linn.) 69, 145
Monkeys
  ad libitum dietary intake of 190
  growth of body length in 192
  growth of body weight in 193
  growth of head circumference in 193
  hematologic development of 194
  serum protein levels in 195
  weight gain related to caloric intake 196
Morphogenetic state of regenerating planaria
  effect of field strength on 296
Mouse growth 261
  least square means of 280-281
  heterosis relative to over-all mean percent 293
Mouse organs at different ages
  total protein of 224
  total DNA of 224
  total RNA of 224
Mouse weight
  diallel analysis of 269
  mean 272-273
  analysis of variance of 275-277
  variance of components at each age 278
Muscle tissue, mouse
  cellular response to rapid growth 227
Myelocytes, quantitative changes following irradiation 91
Naso-frontal suture (nasion) 125, 126
Nile blue incorporation into *Podocoryne* polyps 109-110
Nile blue sulfate as a stain for developing hydranths 104-108
Non-allometric differential growth 11
Norethynodrel
  effect of body weight and epiphyseal width in rats 21
Normoblasts in irradiated bone marrow 96
Nose-flipper lengths in elephant seals 75
Nucleic acid metabolism in embryonic rat liver 217
Nutritional stress
  cellular response of skeletal muscle to 231
  neonatal 231
  prenatal 231
Occipital condyle, anteriormost point 125
Oncogenesis
  immunity and tolerance in 171
Ontogenetic change of cranial base segments in girls 123
Phagocytic patterns in chick development 53
Phagocytosis in reticuloendothelial system of the chick 47
Pituitaries
  growth hormone extract of 17
Pituitary point 125, 126

Page

Podocoryne carnea
growth of isolated hydroid colony 241
growth of stolon network 244
radioautographs of hydranths of 102, 107
stolon length 249
Porcine skeletal muscle
cellular response to nutritional stress 231
Postsphenoid segment of cranial base 131
Postnatal development of muscle and bone in the elephant seal 147
Progestins 18
Protease activities in brain of rat 157
in rat liver 164
Protease/ribonuclease ratio during life-span of rat 162
Rat 57
albino 158
Lewis-Wistar inbred 354
Long Evans 320
Rat brain changes
in protein content 161
in proteolytic activity 161
in ribonuclease activity 161
Rat liver changes
in protein content 160
in proteolytic activity 160
in ribonuclease activity 160
Rat liver, embryonic 217
Rats
allometric studies of body weight and tail length 319
effects of water restriction on growth of 331
effect of water-alcohol intake on weight gain of 331
irradiated 89
mammary tumor growth in 353
Recurrent tumor growth 32, 36
Regeneration of planaria
effect of field frequency on 292
percentage survival of regenerants 295
Relationship of linear measurement and weight in the seal 73
Relative growth, regulation of 143
Reticuloendothelial system, development of 54
Rhesus monkey
adult organ weights of 207
allometric growth of body organs in 208
fetal growth of 201, 205, 206
Ribonuclease activity in rat liver 165
in rat brain 157
Ruthenium-106 as a gastrointestinal tracer 58
Seasonal fluctuations in condition of female elephant seals 80
Self-inhibition of growth in tumors 25, 31
Serum protein levels in infant monkeys 195
Skeletal muscle, pig
effect of nutritional stress on 237, 238
Skeletal weight of humans, regression data for 177-183
Sprague-Dawley rats 17
Sphenoidal wing point 125, 126
Spleen weight of White Leghorn chicks 310
Stem cells in regenerating bone marrow 99
Strong A and A/He mice 114
Testis weight of White Leghorn chicks 310
Thymidine incorporation into hydranths 103-108

	Page
Thyroid weight of White Leghorn chicks	311
Tibia test for growth hormone content in rats	23
Total body calcium in centrifuged mice	87
Transition of cell from normal to neoplastic	28
mitotic control of	28
Tumor growth	
analysis of	29
recurrent	32
self-inhibition of	25
Weight gain in rats	
effect of fluid restriction on	331
Weight gain of seal pups during suckling period	196
Weight of bone during human fetal period	81
Weight of delayed and non-delayed Drosophila pupae	257
Weight of elephant seals	74
White Leghorn chicks	48
growth of	303
Whole body irradiation, effect on bone marrow cells	92, 93
X-radiation, effect on bone marrow cells	91
